Please review the following adoption policies and information. After reading each item, place your initials in the box next to the item.

- Free Physical Examination** -- The Society encourages you to take your new pet to a participating veterinarian within the next fourteen (14) days for a free follow-up exam. This exam does not include tests, x-rays or other medical work. A list of these vets will be given to you at the time of adoption. *(Note: not all veterinary clinics offer the free exam to rabbits, ferrets, rodents and birds. To avoid a charge, please check with the clinic prior to your appointment.)*
- Sterilization of Rabbits/Ferrets** – In an effort to reduce unwanted litters and prevent future health problems, all rabbits and ferrets are spayed/neutered prior to adoption. For some animals, this surgery has been recent, so please take special care to keep the surgical area clean and dry.
- Microchip Implant** for Rabbits/Ferrets -- All rabbits and ferrets have been implanted with a microchip for identification purposes. The microchip provides a permanent, positive identification should your pet become lost. A \$10.00 service fee is collected at the time of adoption to facilitate registration and support the maintenance of the microchip identification and recovery program.
- Thirty-Day Return Policy**—All pet adoptions are given a thirty (30) day period during which time you may return the pet and receive an Adoption Credit Certificate valid towards the adoption of another animal and/or purchase of merchandise in the adoption store. This certificate is valid for ninety (90) days and can be used at any of our five shelter locations. No reimbursement will be given should the new transaction be less than the value of the certificate. If this should occur, the balance will be considered a donation to the Society.
- No Cash Refunds** -- No cash refunds or charge credits will be given for returned animals. Please think about your adoption decision carefully and thoroughly!
- Quarantine Period** – We strongly advise you to keep your newly adopted pet isolated from your existing pets until your veterinarian confirms its health. The Society is unable to treat pets currently in your home, which may have been exposed to illness from your newly adopted pet.
- Ownership Agreement** – As the new owner, you agree to take full responsibility for the care and well being of this pet for its lifetime. Once the adoption is finalized, you will be responsible for all medical bills and decisions regarding this animal.
